

HydroMassage Lounges and Beds are the market leader in innovative water massage technology for wellness and muscle recovery. Powerful waves of heated water massage target specific areas of the body for a personalized and relaxing experience.

HydroMassage uses warm water that flows and contours to your body for a comfortable and rejuvenating massage.

The massage experience can be personalized with speed, intensity, location and temperature controls for a deep, relaxing feeling of well-being in only 10 minutes.

- Helps relieve soreness and stiffness, and increases blood circulation in local areas where massaged for muscle recovery.
- Temporary relief of minor aches and pains for a more active lifestyle.
- Reduces stress, tension, and anxiety for mental wellness and relaxation.
