

HYDROMASSAGE 440 G3

Personalized, Full-Body Heated Massage for Wellness and Muscle Recovery

Designed to impress, the HydroMassage 440 G3 embodies quality and functionality, meeting the needs of diverse industries seeking wellness and recovery technology and solutions.

Sleek, Modern Design

With an exterior panel design featuring sleek, modern lines, a rich color scheme, and a premium designer cover, the HydroMassage will complement any existing branding at your business.

Relaxing Massage

User satisfaction is the top priority with the HydroMassage, which features a smooth and relaxing experience.

Intuitive Touchscreen

State-of-the-art touchscreen and interface with enhanced, simplified controls that offer one-touch selections for targeted massage areas.

Lounge Style

Open, Seated Design: The Lounge is designed with easy access for those who want to relax and experience the heated water massage.

Smooth Wave Traveling Massage: Jets move up and down the body with wave-like streams of heated water, giving the user control of where to target the massage.

Water Through Air Technology: Provides stability and delivers maximum massage pressure.

What are the Benefits of Using the HydroMassage?

Relieves soreness, stiffness and tension, helping your body recover faster.

Promotes increased blood circulation to support muscle recovery where massaged.

Reduces stress and anxiety, contributing to mental wellness.

Provides temporary relief from minor aches and pains, making it ideal for active lifestyles.

Performance and Innovation

Premium Design Details

Ergonomic design maximizes user relaxation in the ideal seating position throughout the massage. Features a new non-allergenic, odor-free and durable textile cover.

Life Tested

Frame and tank have endured 1 million massage cycles with a 300-pound (136 kg) dummy, simulating 50+ years of use without structural impact.

Leader in Quality

WellnessSpace Brands is the global leader in water massage with over 35 years of delivering innovative, quality products.

Reporting & Analytics

Optional software CONTROL 2.0 software package for usage dashboard, maintenance alerts, tech support messaging, and more.
