

RelaxSpace®

Relaxation Pod for a Mental Wellness Break

Feel more calm, relaxed, and focused with the RelaxSpace Wellness Pod. Designed to reduce stress for relaxation and mindfulness.

Modern, Futuristic Product Design

RelaxSpace Wellness Pods are designed to catch the eye and provoke member curiosity, generating ongoing awareness at your establishment.

Intuitive Touchscreen

Users select from a large menu of wellness video content including nature and travel scenes, meditation practices, or mindfulness. You can also, measure heart rate, choose scent, seat heating and more.

Immersive Screen

All wellness video content is displayed overhead on a large monitor, providing users with an immersive experience without any claustrophobic concerns.

Take a Mental Wellness Break with RelaxSpace

- Relax with nature videos
- Breathe with guided breathing
- Reset with meditation
- Grow with personal growth resources
- Focus with mindfulness
- Thrive with healthy lifestyle tips
- Explore unique cities of the world

Added Value for Your Business

Offer Value to Reach More Members

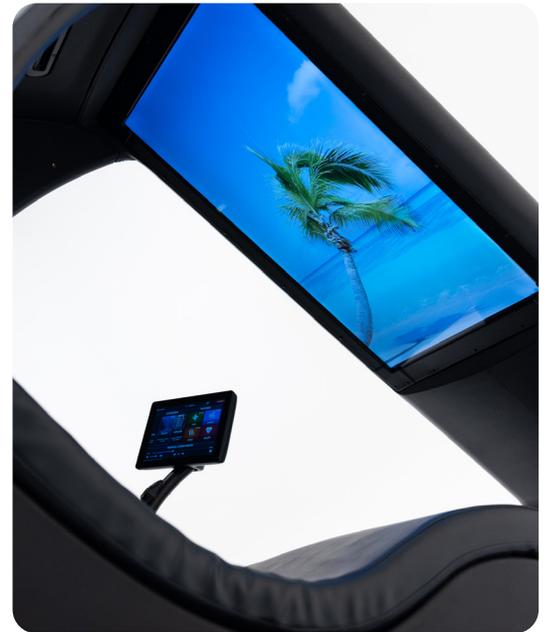

RelaxSpace Wellness Pods can be the perfect complement to other recovery and wellness amenities offered at your facility.

Fits Well in a Small Space

One of the great benefits of these sleek, private pods is that no special room considerations are needed. Each RelaxSpace Wellness Pod can fit well in an 8' x 10' space and requires one standard 110V wall outlet and a CAT-5 connection for software updates.

No Additional Staff

Other than activating the RelaxSpace Wellness Pod from your front desk, there are no special requirements or training needed from your staff. RelaxSpace makes it easy to offer benefits without the hassle of a complex setup.

RelaxSpace Wellness Pod Features

Travel & Nature Videos (with Soundscapes)

Escape with the soothing sounds of nature or mesmerizing sights of cities across the world.

Scent Infusion

From fresh pine to tropical coconut, users have the option of accompanying their experience with scent infusions specifically targeted to reduce stress and enhance relaxation.

Meditation & Breathing Exercises

Users can take a break and reset their minds with refreshing and calming meditation and breathing videos.

Heart-Rate Monitoring

Track your state of relaxation during each session to be more mindful of stress levels.

Healthy Living & Self-Improvement Tips

Learn more about how to fuel your body with tips on proper nutrition, benefits of exercise, and healthy ways to become more physically active.

Heated Lounge Seat

Users can soothe sore muscles or an achy back during any session with built-in heated seats.
