

Cold Plunge Experience Without Getting Wet

PolarWave provides the benefits of a full body cold plunge in a completely dry environment. Designed for convenience and accessibility, PolarWave is the perfect solution for both beginner to experienced cold plungers.

Cold Plunge Without Complexities

The demand for cold plunges is at an all-time high, but for most operators, the installation, maintenance, and sanitation challenges have made them a hassle. PolarWave delivers all the benefits—without the difficulties.

Dry, Hassle-Free Experience

PolarWave offers the invigorating, rejuvenating effects of a traditional cold plunge—minus the mess and sanitation concerns. No wet clothes. No dripping floors. Just pure recovery – anytime.

No Maintenance Concerns

Forget about draining, cleaning, or refilling tanks. PolarWave requires no plumbing and no daily upkeep – just plug it in, power it on, and let your members experience the chill.

Key Features

Full-Body Cold

PolarWave simulates the effects of a full-body cold immersion and provides a float-like sensation without the user getting wet.

Personalized

Variable cold controls for arm and neck regions.

Optional Compression

Boost the impact of cold in the arms and legs by adding additional pressure.

Completely Self Contained

With a 43" x 82" (109 x 208 cm) footprint, there's no private room, water hookup, or complex infrastructure needed.

Quick Sessions

3-7-minute sessions are easy to fit between workouts, appointments or work shifts.

Hassle-Free Operation

Fully self-guided with minimal setup, cleanup, or downtime between uses.

Intuitive Touchscreen

State-of-the-art touchscreen with enhanced, simplified controls.
